

Compliant with Safeguarding of Data Requirements?

DO YOU KNOW WHAT THEY ARE?

DFAR 252.204-7012 Safeguarding Covered Defense Information and Cyber Incident Reporting

FAR 52.204-212 Basic Safeguarding of Contractor Information Systems

DO YOU KNOW WHAT THEY REQUIRE?

DFAR 252.204-7012 mandates compliance with NIST 800-171 and FAR 52.204-21 mandates the implementation of certain requirements for securing and safeguarding IT networks and systems related to:

- Access controls
- Awareness and training
- Audits
- Fault Detection
- Identification and authentication of users
- Incident Response Reporting
- Media Protection
- Maintenance
- System Protection and integrity

Did you know?

Approximately 80% of NIST 800-171 requirements are directly applicable to your ITAR/EAR compliance program.
