

TRADE COMPLIANCE — STANDARD —

TRADE COMPLIANCE STANDARD™

The Trade Compliance Standard (TCS) organizes export compliance requirements using the Temple Of Compliance™ (TOC) Framework.

Regulatory requirements include:

- International Traffic in Arms Regulations (ITAR)
- Export Administration Regulations (EAR)
- Protecting Controlled Unclassified Information (NIST 800-171)

Additional Options include:

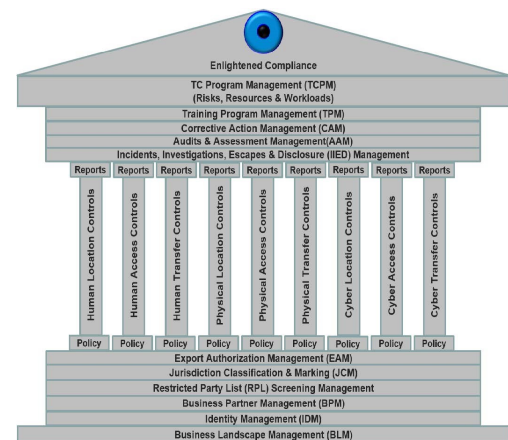

- Policy Manual Template
- Process Map Templates
- Procedure Templates

TEMPLE OF COMPLIANCE™ FRAMEWORK

The requirements are organized into a capabilities framework, visually represented as the Temple of Compliance. Each capability defines the requirements necessary to achieve and maintain compliance with the TCS.
